9. The Secretary of War and the Secretary of the Navy are authorized to detail officers and enlisted persons of the military and naval establishments, respectively, to the Department of State to assist it in the discharge of its duties under this Part or of any duties delegated to it under the Surplus Property Act of 1944, and any such officer or enlisted person shall, while so detailed, retain and be entitled to the rights, benefits, promotions and status of an officer or enlisted person of the establishment from which he was detailed.

PART III

10. There are transferred to the respective agencies to which functions are transferred by this order, for use in connection with the functions so transferred, so much as the Director of the Bureau of the Budget shall determine to relate to such functions, respectively, of the records, property, civilian personnel, and funds of the Administration and its agencies (including funds appropriated to the President for carrying out functions administered by the Administra-tion) and of the War Department and of the Navy Department. Such further measures and dispositions as may be determined by the Director of the Bureau of the Budget to be necessary to effectuate the transfers and abolitions provided for in this order shall be carried out in such manner as the Director may direct and by such agencies as he may designate.

11. The head of each agency to which functions are transferred by this order may, in the interest of efficient administration, assign such of the functions transferred to such head or to his agency by this order as he shall determine to such officers and agencles under his jurisdiction as he shall designate.

12. All prior regulations, rulings, and other directives relating to any function transferred by this order shall remain in effect except as they are in conflict with this order or are hereafter amended or revoked under proper authority.

(4) Such cotton must be free and clear of all liens and encumbrances.

(5) Such cotton must be offered for sale by a person who has the legal right to sell it.

(6) If the person producing such cotton for sale is a landlord or landowner, the cotton must not have been acquired by him directly or indirectly from a share tenant or a sharecropper, and must not have been received in payment of fixed or standing rent; if it was produced by him in the capacity of landlord, share tenant, or sharecropper, it must be his separate share of the crop unless he is a landlord and is tendering cotton in which both he and the share tenant or sharecropper have an interest; and he must not have sold and repurchased the cotton prior to the execution of the 1945 Cotton Producer's Sales Agreement (1945 C. C. C. Cotton Form UA).

(7) Such cotton must be in bales weighing not less than 300 pounds, gross weight.

(8) Such cotton must be undamaged at time of purchase.

(c) Purchasing agency. Any agency approved by Commodity Credit Corporation for the purpose of acting as its agent in purchasing cotton pursuant to the 1945 Cotton Purchase Program in accordance with these instructions and the Cotton Purchasing Agency Agreement (1945 C. C. C. Cotton Form UD) entered

into between such agency and Commodity Credit Corporation.

§ 256.67 Forms. The following documents must be delivered in connection with every sale:

(a) (1) A 1945 Cotton Producer's Sales Agreement (1945 C. C. C. Cotton Form UA), duly executed prior to July 1,21946. (2) Warehouse receipts complying

with the provisions of § 256.72 hereof.
(3) A Cotton Purchasing Agency's
Letter of Transmittal (1945 C. C. C. Cotton Form UC), except in case of direct

purchases.

(b) If the cotton being tendered is under a 1945 Cotton Producer's Note and Loan Agreement, the following forms may be delivered in lieu of the forms specified in (a) above:

(1) A 1945 Cotton Producer's Transfer Agreement (1945 C. C. C. Cotton Form UR) duly executed prior to July

1, 1946.

(2) The producer's duplicate copy of 1945 Cotton Producer's Note and Loan Agreement.

§ 256.68 Amount. The purchase price per pound which will be paid for the gross weight of middling 15/10 inch eligible cotton stored in approved warehouses is shown in the Schedule of Purchase Prices for 1945 Crop Cotton in the Instructions to Warehousemen issued by Commodity Credit Corporation for each warehouse location. Grade and staple premiums and discounts for qualities other than middling 15/16 inch cotton shall be those in effect under the 1945 Cotton Loan Program. These premiums and discounts are shown in the table appearing at the end of the 1945 Cotton Loan Instructions. Purchases will not be made of grades and staple lengths of cotton not shown in the schedule.

An allowance of 20 cents per 100 pounds in Arizona and California and 15 cents per 100 pounds in all other States will be made for cotton outside the zoned area when compressed to standard density. No cotton will be purchased which has been compressed to high density. An allowance of 7 pounds will also be made on bales covered with cotton bagging. Bales weighing between 300 and 400 pounds will be purchased at the regular purchase price less \$1.25 for each such bale.

§ 256.69 Classification of cotton. "All cotton must be classified by a Board of Cotton Examiners of the United States Department of Agriculture. Instructions will be issued to approved warehouses concerning sampling and forwarding of samples and recording the class of the cotton in the schedule of warehouse receipts in the 1945 Cotton Producer's Sales Agreement and in the 1945 Cotton Producer's Transfer Agreement. The classification of any cotton previously classed by a Board of Cotton Examiners for the loan program may be used by transcribing such classification from the loan to purchase forms. A charge of 15 cents per bale will be made for cotton classed under the program. The warehouseman should collect this charge from the producer. The Board of Cotton Examiners will make collections for classing charges from the warehouseman at the end of each month. Form 1 Classification Memorandum of the United States Department of Agriculture will also be accepted as evidence of the class of cotton provided the sample is a representative cut sample drawn by an approved warehouseman, United States Department of Agriculture employee, or a bonded sampler.

§ 256.70 Preparation of documents. A producer desiring to sell his cotton to Commodity Credit Corporation may obtain the necessary forms from an approved cotton warehouse, a purchasing agency, or the county office of the Agricultural Adjustment Agency. The warehouseman who has issued the warehouse receipts representing the cotton will fill in all except the last two columns of the Schedule of Warehouse Receipts in the 1945 Cotton Producer's Sales Agreement. He will also execute the Warehouseman's Certificate and Storage Agreement. In the case of purchases through a purchasing agency, the purchasing agency will then determine the amount due the producer on the basis of the Schedule of Purchase Prices for 1945 Crop Cotton and will complete the Schedule of Warehouse Receipts. It will also assist the producer in completing the remainder of the sales agreement. In the case of direct purchases under the 1945 Cotton Producer's Sales Agreement by Commodity Credit Corporation, after the warehouseman has executed the Warehouseman's Certificate and Storage Agreement the county agricultural conservation committee will complete the Schedule of Warehouse Receipts and assist the producer in completing the remainder of the sales agreement.

If the cotton being tendered for purchase is held under Form A loan (1945) Cotton Producer's Note and Loan Agreement), the producer may, in lieu of redeeming the cotton and tendering it under the forms prescribed in § 256.67 (a) hereof, execute a 1945 Cotton Producer's Transfer Agreement, attach his duplicate copy of the Form A or, if such duplicate copy of the Form A is not available. a Form AA (Cotton Producer's Equity Transfer Agreement) executed by the Federal Reserve bank covering such cotton, and present these documents to the warehouseman in whose warehouse the cotton is stored. The warehouseman will execute the Warehouseman's Certificate and Storage Agreement, in the 1945 Cotton Producer's Transfer Agreement, and the documents should be transmitted to the Federal Reserve bank serving the district in which the cotton is stored. Producers will not be permitted to tender under a transfer agreement cotton held under a Form A loan if any bale of such cotton is damaged and has to be reconditioned. After such cotton has been reconditioned by the warehouseman, it may be tendered on the reconditioned weights to the Corporation under a 1945 Cotton Producer's Sales Agreement. All farm-stored loan cotton must be redeemed from the loan and tendered under a 1945 Cotton Producer's Sales Agreement.

§ 256.71 Approved warehouses. Cotton to be eligible for purchase must be

stored in warehouses approved by Commodity Credit Corporation. When warehouses are approved, notification will be given to the approved purchasing agencies. Complete instructions will be issued to warehousemen, at the time of approval, for their guidance in completing the Schedule of Warehouse Receipts in the 1945 Cotton Producers' Sales Agreement.

§ 256.72 Warehouse receipts. Only negotiable warehouse receipts issued by an approved warehouse, dated on or prior to the date of the 1945 Cotton Producer's Sales Agreement, and properly assigned by an endorsement in blank so as to vest title in the holders, or issued to bearer, will be acceptable. They must set out in their written or printed terms a description by tag number and gross weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Block warehouse receipts will not be accepted.

§ 256.73 Warehouse charges. All warehouse charges must be paid by the producer to the close of the month during which the Warehouseman's Certificate and Storage Agreement in the 1945 Cotton Producer's Sales Agreement or the 1945 Cotton Producer's Transfer Agreement is executed. Warehouse charges thereafter will be in accordance with the Warehouseman's Certificate and Storage Agreement.

§ 256.74 Insurance. Under the terms of the Warehouseman's Certificate and Storage Agreement, the warehouseman is not required to insure the cotton against loss from fire after the date of execution of the certificate and storage agreement. Consequently, if the producer does not sell the cotton to Commodity Credit Corporation within 10 days after the certificate and storage agreement has been executed, the producer, if he desires to have the cotton insured against fire, will have to arrange for such insurance.

§ 256.75 Liens. Eligible cotton must be free and clear of all liens. The names of the holders of all existing liens on cotton tendered for sale, such as landlords. laborers, and mortgagees, must be listed in the List of Lienholders in the 1945 Cotton Producer's Sales Agreement, and the lienholders so listed must execute the Lienholder's Waiver in such form. If the producer is a tenant or sharecropper. the landlord must be listed and must sign the lien waiver whether or not he claims a lien, unless the 1945 Cotton Producer's Sales Agreement is signed jointly by the landlord and the tenant or sharecropper. A misrepresentation as to prior liens, or otherwise, will render the producer personally liable for any damage suffered by Commodity Credit Corporation and subject him to criminal prosecution under the provisions of section 35 (a) of the Criminal Code of the United States (18 U. S. C. 80 [1940]). 'The Lienholders' Waiver in the 1945 Cotton Producer's Sales Agreement must be signed personally by all lienholders listed, by their agents (in which case duly executed powers of attorney must be attached), or, if corporations, by the designated officers thereof customarily authorized to execute such instruments (in which case no authority need be attached).

§ 256.76 Manner of payment to producer. Purchases of cotton under the 1945 Cotton Producer's Sales Agreement will ordinarily be made by purchasing agencies, acting as agents for Commodity Credit Corporation. In such a case, the producer must tender a sales agreement and warehouse receipts representing the cotton offered for sale to the purchasing agency within 10 days after the date of the Warehouseman's Certificate and Storage Agreement in section II of the sales agreement, but in no event later than June 30, 1946. After completion of the sales agreement, the purchasing agency will pay the purchase price on behalf of the Corporation in the manner directed in section III of such sales agree-

A producer may also obtain payments direct from Commodity Credit Corporation by tendering a properly executed 1945 Cotton Producer's Sales Agreement and warehouse receipts representing the cotton offered for sale to the Regional Office of Commodity Credit Corporation, New Orleans 12, Louisiana, within 10 days after the date of the Warehouseman's Certificate and Storage Agreement, but in no event later than June 30, 1946. If the tender is made by mail, the envelope must be postmarked within 10 days after the date of the Warehouse-man's Certificate and Storage Agreement, but in no event later than June 30, 1946.

If the cotton is being tendered under a 1945 Cotton Producer's Transfer Agreement, the producer's duplicate copy of the 1945 Cotton Producer's Note and Loan Agreement or a Cotton Producer's Equity Transfer Agreement executed by the Federal Reserve bank, and the transfer agreement, must be mailed to the Federal Reserve bank serving the district in which the warehouse is located within 10 days after the date of the warehouseman's Certificate and Storage Agreement in the 1945 Cotton Producer's Transfer Agreement, but in no event later than June 30, 1946. The Federal Reserve bank, as agent of Commodity Credit Corporation, will calculate the amount due the producer and mail him a check for such amount, together with a copy of the transfer agreement on which the payment calculations are

As between Commodity Credit Corporation and the producer, the Corporation will bear all risks of loss or damage to the cotton on and after the date of Warehouseman's Certificate and Storage Agreement in the sales or transfer agreement if it is tendered to the Corporation, with the required documents attached, within 10 days of the date of the certificate and storage agreement, but in no event later than June 30, 1946.

§ 256.77 Purchasing agencies. Agencies desiring to cooperate in the purchase program should apply to the Regional Office of Commodity Credit Corporation, New Orleans 12, Louisiana, for approval. A Cotton Purchasing Agency's Agreement (1945 C. C. C. Cotton Form

UD) will be entered into with each approved agency. Under this agreement, a purchasing agency is required to tender, on a Cotton Purchasing Agency's Letter of Transmittal (1945 C. C. C. Cotton Form UC), all warehouse receipts representing cotton purchased by the purchasing agency under such agreement. together with the 1945 Cotton Producer's Sales Agreements covering such cotton, to the Regional Office of Commodity Credit Corporation. New Orleans 12, Louisiana, within 15 days after the dates of execution of the Warehousemen's Certificate and Storage Agreement in such sales agreements. Upon receipt by Commodity Credit Corporation, the instruments will be examined, and, if the documents are in order, disbursements will be made or notes guaranteed by the United States will be issued to the purchasing agency, all in accordance with the terms of the Cotton Purchasing Agency's Agreement. Care should be exercised by the purchasing agency to determine that the warehouse receipts are genuine.

Note: The foregoing document covers 1945 C. C. C. Cotton Form U-1, issued by Commodity Credit Corporation on August 27, 1945, and Amendment No. 1 to said Form U-1.

Dated: August 27, 1945.

PART 3290—TEXTILE, CLOTHING AND

[Conservation Order M-328B, Schedule J, as Amended Aug. 18, 1945, Amdt. 1]

SPECIAL PROGRAM FOR RAYON CIVILIAN ITEMS

Section 3290.120j, Schedule J to Order M-328B, is amended in the following respects:

- 1. By changing the words "an AA-3 preference rating" in paragraph (a) to read "preference ratings."
 2. By deleting "AA-3" in the heading
- 2. By deleting "AA-3" in the heading of the preference rating schedule at the end of Schedule J.
- 3. By adding the following new paragraphs to Schedule J:
- (e) Delivery and use of rayon fabric to fill rated or certified orders. (1) Every

producer of rayon fabric in the gray state, whether he sells it in the gray or finished state or uses it to manufacture civilian items, shall deliver or use, during the fourth quarter of 1945, a yardage of rayon fabric at least equal to 40% of his production during that period to fill either orders bearing CC ratings assigned under Order M-328B or orders bearing the following certification (the term "orders" includes orders between branches or divisions of a company as well as orders from other companies):

"The undersigned certifies, subject to the criminal penalties of Section 35 (a) of the U.S. Criminal Code, that he will deliver during the fourth quarter of 1945, to fill orders rated CC under Order M-328B, a yardage of finished rayon goods equal to at least all unfinished rayon gray goods to which he takes title during that period on orders bearing this certificate, or 40% of all unfinished rayon gray goods to which he takes title during the same period, whichever is greater."

(2) A producer of rayon fabric shall not be required to deliver or use, in the fourth quarter of 1945, to fill such rated or certified orders, more than a yardage of rayon fabric equal to 40% of his fourth quarter production. After a producer has accepted orders bearing the certification described above, he may schedule them for delivery as if they bore CC ratings.

(f) Deliveries by finished goods suppliers. (1) Every supplier of finished fabrics making the certification described in paragraph (e) above must deliver finished rayon fabric during the fourth quarter of 1945, in accordance with its terms. In calculating the 40%, the supplier of finished goods may take into consideration actual processing loss on material delivered in the fourth quarter. For example, a finished goods supplier has an actual processing shrinkage of 5% on rayon fabric delivered by him in the fourth quarter of 1945. If he takes title to 100,000 yards of rayon gray goods in the fourth quarter, his 40% is based on 95,000 yards, which is 38,000 yards of finished goods.

(2) No supplier of finished rayon fabric shall be required to accept orders rated CC under M-328B for a greater yardage of finished rayon fabric for delivery in the fourth quarter of 1945 than a yardage equal to 40% of the unfinished rayon gray goods to which he takes title in that period, or a yardage equal to all unfinished rayon gray goods to which he takes title during that period on orders bearing the certificate in paragraph (e) above, whichever is greater.

(3) After a supplier of finished fabrics

uses the certificate set forth in paragraph (e) on any of his purchase orders to his suppliers, he must not extend on orders for rayon fabric any CC ratings which he knows or has reason to believe were assigned under Order M-328B.

(g) Acceptance of rated orders. (1) If a supplier of gray or finished rayon fabric receives orders bearing CC ratings (assigned under M-328B) before October 3, 1945, he may hold them until that date before determining whether he is required to accept them. However, he must not actually reject any such CC orders before that date. If, on October 3, 1945, he has received such rated orders and orders certified under paragraph (e) for more than the yardage which he is required by paragraph (e) or paragraph (f) to deliver on such rated or certified orders, he may then reject any CC rated orders previously served on him to the extent of the excess. This subparagraph (1) does not affect AA 3 purchase orders which have been accepted and which may be re-rated CC before October 1, 1945, in accordance with Direction 18 to Order M-328.

(2) Any purchaser who is unable to get his rated orders accepted should notify the War Production Board.

(h) Exceptions from requirements. This paragraph explains how a finished goods supplier who is unable to get CC rated orders to meet the requirements of paragraph (f) above may obtain relief from that requirement.

(1) He must send two copies of Form WPB-4351 by registered mail to the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C.,

within the time stated below. This form must be completely filled out in accordance with its instructions. Copies of the form may be obtained from any War Production Board Field Office.

(2) Form WPB-4351 may not be filed before November 1, 1945.

(3) Seven days after the mailing of Form WPB-4351 in accordance with the rules above, if the War Production Board does not otherwise direct in writing, the finished goods supplier seeking relief may, to the extent that he is unable to obtain orders rated CC under M-328B. disregard the requirements that he deliver during the fourth quarter the yardage of finished fabric specified in paragraph (f).

(i) The special rules of this Schedule J for the handling of ratings apply only to CC ratings assigned under Order M-328B. Nothing in this Schedule affects CC ratings assigned on Form WPB-541-A under PR 28, or MM ratings.

Issued this 26th day of September 1945.

2. By adding to paragraph (d) (7) the following sentence: "However, CC ratings assigned on an individual certificate or form for deliveries in the fourth quarter of 1945 may be extended only in accordance with Priorities Regulation 3.

3. By deleting the "AA-3" in the heading of the preference rating schedule at the end of Schedule K.

4. By adding the following new paragraphs to Schedule K:

(e) Quantity of wool fabric production subject to ratings. A producer of wool fabric shall not be required to deliver or use, in the fourth quarter of 1945, to fill orders bearing CC ratings assigned under Order M-328B, more than a yardage of wool fabric equal to 45 percent of his fourth quarter production.

(f) Acceptance of rated orders.

(1) If a supplier of wool fabric receives orders bearing CC ratings (assigned under Order M-328B) before October 3, 1945, he may hold them until that date before determining whether he is required to accept them. However, he must not actually reject any such CC orders before that date. If, on October 3, 1945, he has received such rated orders for more than the yardage subject to M-328B ratings under paragraph (e), he may then reject any such CC rated

orders previously served on him to the extent of the excess. This subparagraph (1) does not affect AA-3 rated purchase orders which have been accepted and which may be rerated CC before October 1, 1945, in accordance with Direction 18 to Order M-328.

(2) Any purchaser who is unable to get his rated orders accepted, should notify the War Production Board.

(g) The special rules of this Schedule K for the handling of ratings apply only to CC ratings assigned under Order M-328B. Nothing in this Schedule affects CC ratings assigned on Form WPB-541A under Priorities Regulation 28, or MM ratings.

Chapter XI-Office of Price Administration

PART 1360—Motor Vehicles and Motor Vehicle Equipment

[RMPR 341,1 Amdt. 11]

MAXIMUM PRICES FOR USED COMMERCIAL MOTOR VEHICLES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 341 is amended in the following respects:

- 1. Section 1 (a) (1) is amended to read as follows:
- (1) Definition of used commercial motor vehicle ("used vehicle"). Used commercial motor vehicle (called used vehicle in this regulation) means
- (i) Any self-propelled vehicle, or a vehicle drawn by it, which may be used commercially on and off the highway for the transportation of property or of more than ten persons; or
- (ii) Any self-propelled vehicle or a vehicle drawn by it, except a civilian type of passenger automobile, sold to the War Department, Department of the Navy, United States Marine Corps, or the United States Coast Guard; or
- (iii) Any chassis or body of a vehicle named in (i) or (ii); which irrespective of mileage has been used other than for the purpose of sale.
- This definition covers vehicles of the following types:
- (iv) Vehicles primarily designed for civilian use, such as: ambulances, cab pickups, carryall suburbans, combinations consisting of truck bodies and passenger automobile chassis, coupes fitted with pickup boxés, fire trucks, hearses, omnibuses, sedan deliveries, trucks, truck tractors, truck trailers (full and semi) and utility sedans; and
- (v) Army general and special purpose vehicles and army special equipment vehicles defined in section 18.

This definition does not cover the following vehicles:

- (vi) Civilian passenger automobiles, civilian station wagons having a seating capacity of less than eleven persons, vehicles operated on rails, self-track-laying vehicles, motorcycles, or farm and garden tractors designed and used for agricultural purposes.
- 2. Section 6 (a) (1) is amended to read as follows:
- ¹8 F.R. 11175, 17036, 17414; 9 F.R. 3847, 4398, 7009, 10641.

- (1) The "value when new" of the vehicle determined in accordance with paragraph (b) or (c) of this section, whichever is applicable;
- 3. The headnote of paragraph (b), section 6, and the narrative in that paragraph immediately preceding subparagraph (1) are amended to read as follows:
- (b) Determining "ralue when new" for vehicles other than Army, Navy, Marine Corps and Coast Guard rehicles. The "value when new" of a vehicle, or a vehicle chassis or body when sold or priced separately, shall be determined under this paragraph (b) except when the vehicle, including a chassis or body, was sold when new to the War Department, Department of the Navy, Marine Corps or United States Coast Guard. In this latter case the "value when new" shall be determined under paragraph (c). (The "value when new" determined under subparagraph (1) is for a vehicle complète with the customary functional, and non-functional parts and other standard equipment. When a functional or non-functional part or a piece of standard equipment is missing from the vehicle at the time of sale, the "value when new" under subparagraph (1) shall be reduced by the amount of the retail list price for each removed part or piece of equipment when new. If the list price is not ascertainable deduct from the "value when new" of the vehicle an amount which is a reasonable estimate of the retail price of such a part or equipment when new).
- 4. Paragraphs (c) and (d) of section 6 are redesignated (d) and (e) respectively and a new paragraph (c) is added to section 6 to read as follows:
- (c) Determining "raluc when new" of Army, Navy, Marine Corps and Coast Guard rehicles—(1) General. The "value when new" of vehicles sold when new to the War Department, Department of the Navy, Marine Corps or the Coast Guard shall be determined under this paragraph (c). (The term vehicle includes a vehicle consisting of a chassis and body or a chassis or body of a vehicle sold separately).
- (2) Method for determining "ralue when new." The "value when new" shall be the dollar amount listed in Appendix G for a vehicle having the same specifications as the vehicle being priced with respect to model year, tonnage rating drive (i. e. 4×2 , 4×4 , etc.) body type (i. e. cargo, pickup, etc.) and wheelbase.

If a vehicle having these same specifications as the vehicle being priced does not have a price listed in Appendix G use the price in that Appendix for a vehicle most comparable to the vehicle being priced with respect to these specifications.

In the case of a body sold separately, the "value when new" shall be the original retail price new, f. o. b. factory, (exclusive of transportation costs and taxes) or, if that price is not ascertainable, the retail price when new, f. o. b. factory, (exclusive of transportation costs and taxes) for the most comparable body of the closest model year.

- (3) What "ralue when new corers." "Value when new" covers all parts and other equipment present on the vehicle at the time it is sold to the War Department, Department of the Navy, Marine Corps or Coast Guard. When either the Procurement Division, United States Treasury, or the United States Department of Commerce sells a vehicle less a part or other equipment that was on the vehicle when sold new to the War Dapartment, Department of the Navy, Marine Corps or Coast Guard, it shall deduct from the "value when new" of the vehicle, the retail list price for each missing part or piece of removed equipment when new. If the retail list price of a missing part or piece of equipment when new is not ascertainable, deduct from the "value when new" of the vehicle an amount which is a reasonable estimate of the retail price of such part or equipment when new. A reseller of a vehicle from which a part or piece of equipment is missing must make the same deductions in determining the maximum price for such a vehicle.
- 5. A new subparagraph (3) is added to section 6 (d) to read as follows:
- (3) Transportation allowances for rehicles which have "values when new" under section 6 (c). For the purpose of determining transportation allowances under this paragraph (d) for vehicles which have "values when new" determined under section 6 (c), Detroit, Michigan, shall be considered as the principal place of manufacture in all cases regardless where the principal places of manufacture actually are.
- 6. Section 6 (e) (1) is amended to read as follows:
- (1) When allowances may be included in base price. This paragraph (e) establishes allowances for extras (defined in section 18 (c)) that may be included in the "base price" permitted by paragraph (a) of section 6. The only extras for which a seller other than a consumer may include allowances in the "base price" are those with which the vehicle was equipped at the time of purchase and which are present on the vehicle at the time it is sold. A consumer may include allowances for extras present on the vehicle at the time he sells it. The amount of the allowances for these extras shall be determined in accordance with subparagraph (2) below.

Note: When extras are added by a dealer at the request of a purchaser, or are added in connection with alterations, additions may be added to the maximum price. The amount of the allowances and the circumstances under which they may be added to the maximum price are covered by paragraph (a) of cection 9.

R. C. A. COMMUNICATIONS, INC. ET AL.

ORDER INSTITUTING INVESTIGATION AND SETTING HEARING DATE

In the matter of increased charges for telegraph communications between the United States and Samoa and the Fiji Islands.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 18th day of September 1945;

It appearing, That R. C. A. Communications, Inc., Mackay Radio and Telegraph Company, and The Western Union Telegraph Company have filed with the Commission revised tariff schedules effective October 1, 1945, stating new increased charges for telegraph messages from the United States and Puerto Rico to Samoa and the Fiji Islands, said tariff schedules being designated as follows:

R. C. A. Communications, Inc. Tariff F. C. C. No. 15 9th Revised Page 86 Mackay Radio and Telegraph Company Tariff F. C. C. No. 2 22nd Revised Page 94 The Western Union Telegraph Company Tariff F. C. C. No. 173 19th Revised Page 30 2nd Revised Page 37C

It further appearing, That said tariff schedules state increased charges for telegraph communications in interstate and foreign commerce; that the rights and interests of the public may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of such schedules, insofar as they provide for increased charges for telegraph communications from the United States and Puerto Rico to Samoa and the Fiji Islands, should be postponed pending hearing and decision on the lawfulness of such increased charges;

It is ordered, That the Commission, upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the charges contained in the above-cited tariff schedules, insofar as they relate to telegraph communications from the United States and Puerto Rico to Samoa and the Fiji Islands.

It is further ordered, That the opera-tion of the above-cited tariff schedules, insofar as they provide for increased charges for and in connection with telegraph communications from the United States and Puerto Rico to Samoa and the Fiji Islands, be suspended; that the use of the charges therein stated be deferred until January 1, 1946, unless otherwise ordered by the Commission; and that during said period of suspension no changes shall be made in such charges or in the charges sought to be altered, unless authorized by special permission of the Commission;

It is further ordered, That an investigation be, and the same is hereby instituted, into the lawfulness of the rates, charges, classifications, regulations, practices, and services of R. C. A. Communications, Inc., Mackay Radio and Telegraph Company, and The Western Union Telegraph Company, for and in connection with telegraph communication service between the United States and Puerto Rico, on the one hand, and Samoa and the Fiji Islands, on the other.

It is further ordered, That in the event a decision as to the lawfulness of the charges herein suspended has not been made during the suspension period and said charges have gone into effect, all of the carriers subject to the Commission's jurisdiction participating in the service provided under the tariff provisions herein suspended, shall, until further order of the Commission, each keep accurate account of all amounts charged, collected or received by reason of any increase in charges effected thereby; that each such carrier shall specify in such accounts by whom and in whose behalf such amounts are paid; and each such carrier shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing February 10, 1946, showing the

amounts accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order be filed in the offices of the Commission with said tariff schedules herein suspended; that all carriers subject to the Commission's jurisdiction which are parties to such tariff schedules be, and they are hereby each made a party respondent to this proceeding; and that copies hereof be served upon each such party respondent;

It is further ordered, That this proceeding be, and the same is hereby assigned for hearing on the 24th day of October 1945, beginning at 10:00 a.m. at the offices of the Federal Communications Commission in Washington, D. C.

COMMERCIAL TELEVISION BROADCAST STATION

ORDER SETTING FOR HEARING SUGGESTED REGULATIONS

In the matter of promulgation of rules and regulations and standards of good engineering practice for commercial television broadcast stations.

Whereas, The Commission on June 27, 1945, issued its final report allocating frequencies for television broadcasting;

Whereas, it is desirable that rules and regulations and standards of good engineering practice concerning television broadcasting should be promulgated as soon as possible; and

Whereas the Commission has heretofore called an informal engineering conference for the purpose of discussing technical matters involved in standards of good engineering practice for tele-

vision broadcasting.

Now, therefore, it is ordered, This 20th day of September 1945, that a hearing be held before the Commission en banc beginning at 10:30 a.m., October 4, 1945, for the purpose of considering the promulgation of rules and regulations and standards of good engineering practice concerning television broadcasting. Persons desiring to appear at that hearing should file an appearance with the Commission on or before October 1, indicating the name of the person who will appear, the subject matter concerning which he will testify, and the length of time desired. Persons desiring to file briefs should file 25 copies with the Commission on or before October 1, 1945.

In order to give scope and direction to the hearing, there is set forth in the attached appendix the substance of suggested rules and regulations concerning the principal subjects to be considered by the Commission. Persons appearing at the hearing should address themselves to these suggested regulations and should indicate with particularity any objection they have to the regulations and any specific suggestions they have for any

change in, or alternative to, the suggested regulations.

T. J. SLOWIE. Secretary.

APPENDIX

(1) Minimum operating schedule. The licencee of each television broadcast station chall maintain a regular program operating schedule transmitting a standard television algual for a total of 6 hours per day. In ad-dition, comment to requested as to whether the minimum operating schedule should be more or less than 6 hours per day and as to whether the Commission should provide for the charing of some or all television channels by two or more licences. If such shoring is provided for, the Commission will pre-carbo the hours each licensee is to operate.

(2) Multiple ownership. No person (including all percens under common control;2 chall, directly or indirectly, own, operate, or control more than one television broadcast station, except upon a showing (1) that such ownership, operation, or control would foster competition among television broadcast stations or provide a television broadcast service distinct and ceparate from existing services. and (2) that such ownerchip, operation or control would not result in the concentration of control of television broadcasting facilities in a manner inconsistent with public interest, convenience, or necessity: Protided, however, That no person (including all persons under common control), shell directly or indirectly own, operate, or control more than one television broadcast station that would serve substantially the same cervice erea: And provided, further, That the Commission will regard the ownership, operation, or control of more than five television breadcast stations as constituting a concentration of control of televicion broadcasting facilities in a manner inconsistent with public interest, convenience, or necessity.

(3) Network regulations. The chain broad-casting regulations shall be applicable to

television stations.

(4) Use of common antenna site. No television licence or renewal of a television license will be granted to any person who owns, leases, or controls a particular site which is peculiarly suitable for television broadcasting in a particular area; and (1) which is not available for use by other television licencees; and (2) no other comparable site is available in the area; and (3) where the exclusive use of such site by the applicant or licensee would unduly limit the number of television stations that can be authorized in a particular area or would unduly rectrict competition among television stations.

(5) Announcement of mechanical reproductions. Comment is invited concerning the desirability of requiring an appropriate announcement to be made when motion pictures or other mechanical reproductions are used in television broadcasting.

(6) Station identification. Comment is requested as to whether station identification should be by aural means, by video means, or by both and how frequently such announcements should be made.

(7) Allocation plan. The 13 channels available for televicion broadcosting shall be divided as follows:

(a) Community stations. A community station is designed to render service to those cities or communities which have fewer than two metropolitan stations as shown in the

^{*}The word "control" as used herein is not limited to majority stock ownership, but in-cludes actual working control in whatever manner exerciced.

table below. However, community stations may be assigned to cities with two or more metropolitan stations upon a showing that this would not make impossible the assignment of a station to another city which has a reasonable probability of a station being located there. The power of a community station may not exceed an effective radiated peak power of 1 kilowatt with a maximum antenna height of 500 feet above the average terrain ten miles from the transmitter. Upon a proper showing that an antenna height in excess of 500 feet is available, authorization will be issued for such higher antenna but the Commission may in such cases require a reduction in radiated power.

A minimum separation of 90 miles normally will be provided in the case of community stations on the same channel and a minimum of 45 miles on adjacent channels. However, upon a showing that public interest would be served thereby, community stations may be located at closer distances. The main studio shall be located in the city or town served and the transmitter shall be located as near the center of the city as practicable.

Three television channels will be assigned to community stations. They are television channels 1, 12 and 13.

(b) Metropolitan stations. Metropolitan stations may be assigned to television channels 2 through 6 and 7 through 11, both inclusive. They are designed primarily to render service to a single metropolitan district or a principal city and to the rural area surrounding such metropolitan district or principal city. The Commission will determine the approximate service area 2 for metropolitan stations.

The table below sets forth the channels which are available at this time for the areas indicated. Attention should be called to the fact that as is pointed out in the Commission's Report of May 25, 1945, the 13 television channels which are available for television below 300 mc are insufficient to make possible a truly nation-wide and competitive television system. Hence, the Commission has made available the space between 480 and 920 mc for experimental television where more space exists and where color pictures and superior monochrome pictures can be developed through the use of wider channels. Applications may be filed for experimental stations between 480 and 920 mc.

The table below will be revised from time to time depending upon the demand for television stations which may exist in the various cities. Where it is desired to use a different channel in any such area, or to use one of the channels in another area conflicting therewith, it must be shown that public interest, convenience, or necessity will be better served thereby than by the allocation set forth in the table.

Stations in metropolitan or city areas not listed in the table will not be assigned closer than 150 miles on the same channel or 75 miles on adjacent channels, except upon an adequate showing that public interest, convenience, or necessity would be better served thereby or that by using lower power or by other means equivalent protection is provided,

Metropolitan stations will not be authorized to operate with an effective radiated peak power in excess of 50 kilowatts. No restriction is propsed at this time with respect to the maximum antenna height; however, a minimum height of 500 feet above

tion in making its determination. Among these recognized authorities are the following: J. Walter Thompson (Retail Shopping Areas), Hearst Magazines, Inc., (Consumer Trading Areas), 'Rand McNally Map Co. (Trading Areas), and Hagstrom Map Co.'s Four Color Retail Trading Area Map.

the average terrain will be required, except upon a showing that it is not practical to obtain such height. In all cases the main studio shall be located in the city or metropolitan district with which the station is associated and the transmitter should be located so as to provide the maximum service to the city or metropolitan district and the surrounding rural area. A signal of at least 500 uv/m over the entire metropolitan district and at least 5000 uv/m over the business district of the principal city should be obtained (for a reasonable period reduced power will be permitted).

(c) Rural stations. Licensees of metro-

D

(c) Rural stations. Licensees of metropolitan stations or applicants who desire to qualify as licensees of rural stations must make a special showing to the Commission that they propose to serve an area more extensive than that served by a metropolitan station and that the additional area proposed to be served is predominantly rural in character. In addition, a showing must be made that such use of the channel will not cause objectionable interference to other television stations or prevent the assignment of other television stations where there is reasonable evidence of the probability of such station being located in the future.

³ As a guide, the Commission will consider that the additional area beyond the service area of a metropolitan station which is proposed to be served is predominantly rural in character if at lease 50 per cent of the population proposed to be added within the 500 uv/m contour live in rural areas or in cities smaller than 10,000. In making this computation, cities with population in excess of 10,000 shall be excluded if the signal in such cities is less than 2000 uv/m. Exceptions to this rule will be made where a showing is made to the Commission that due to conditions of terrain or local factors, more extended service to unserved rural areas is possible by licensing rural stations to serve an area which does not meet the above requirements than would otherwise be possible.

To this retail list price the reseller may add the applicable charges in paragraph (e) (2).

(g) The Chevrolet Motor Division, General Motors Corporation, shall determine a retail list price for each of the truck models for which it is authorized in paragraph (b) to charge a maximum net wholesale price. The retail list price for each of the truck models shall reflect a percentage differential between such price and the applicable net wholesale price determined under paragraph (b) as existed between the Chevrolet Motor Division's March 31, 1942, net wholesale price for the particular model and the retail list price for such model suggested by the Chevrolet Motor Division to resellers on March 31, 1942. These retail list prices shall be subject to the discounts and allowances the particular reseller had in effect on March 31, 1942,

(h) The Chevrolet Motor Division shall report to the Automotive Branch, OPA National Office, each retail list price it determines in accordance with paragraph (g) not later than five days from the date it sells the truck model to which the retail list price applies.

(j) A reseller that cannot establish a price under paragraph (e) or (f) because it was not in business on March 31, 1942, shall determine its maximum price by adding to the applicable list price stated in paragraph (e) or (f), the following applicable charges:

(1) Charges. (1) The original equipment retail charge that Chevrolet Motor Division, General Motors Corporation suggested on March 31, 1942, be made by resellers for extra, special or optional equipment attached to the truck as original equipment;

(ii) A charge to cover actual freight-

ing expense;

(iii) A charge equal to the charge made to the reseller by the Chevrolet Motor Division, General Motors Corporation, in accordance with its March 31, 1942, method to cover federal excise and tiresweight taxes;

(iv) A charge equal to reseller's expense for payment of state, territorial, insular and local taxes on the purchase, sale or delivery of the applicable truck model;

(v) A charge equal to reseller's actual expense for handling and delivery.

(k) A reseller of Chevrolet trucks in any of the territories or possessions of the United States, is authorized to sell each of the trucks described in paragraph (a) or (b), at a price not to exceed the applicable maximum price established in paragraph (e), (f) or (j), to which it may add a sum equal to the expense incurred by or charged to it, for export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage and terminal operations.

(1) All requests not granted in this third revised order are denied.

(m) This third revised order may be amended or revoked by the Administrator at any time.

Note: The manufacturer's price under paragraph (a) or (b) is for a truck equipped with natural rubber tires, or synthetic rubber tires delivered to it prior to April 18, 1944. Where the manufacturer has an established price in accordance with section 8, Revised Maximum Price Regulation 136, which is higher than a price permitted under paragraph (a) or (b) because the truck is equipped with synthetic tires delivered to the manufacturer on and after April 18, 1944, or because of any other substantial specification change or material substitution in the truck, the reseller may add to its price under paragraphs (e), f), (j) or (k), the increase in cost to it over the price it would otherwise pay under paragraph (a) or (b) plus its customary markup on such an increase, but in the case of a decrease in the price under paragraph (a) or (b) the reseller must reduce its price under paragraphs (e), (f), (j) or (k), by the amount of the decrease and the customary markup on such an amount.

This third revised order shall be effective September 27, 1945.

Issued this 27th day of September 1945.

Administrator.

An opinion accompanying this order issued simultaneously herewith, has been filed with the Division of Federal Register.

In the judgment of the Regional Administrator of Region II of the Office of Price Administration, the maximum prices established and the Regulations prescribed by this order are generally fair and equitable, are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended,

and Executive Orders Nos. 9250 and 9599, and do not exceed the general level of prices fixed by Revised Maximum Price Regulation No. 251.

Therefore, under the authority vested in the Regional Administrator of Region II of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended, and by section 9 of Revised Maximum Price Regulation No. 251, this order is hereby issued.

Section 1. Transactions covered by this order. This order covers all sales of composition re-siding and re-roofing on an installed basis, together with accessories on residential structures in the area hereinafter described. It also includes related and incidental construction work when sold by installers of residing and re-roofing, whether such sale is made as a part of a general contract or not.

The term "composition residing" includes asphalt shingle re-siding, asbestos cement re-siding, insulated brick: or stone re-siding and roll brick re-siding but shall not include wood shingles or wood re-siding.

The term "re-roofing" includes composition re-roofing such as asphalt shingles and mineral surface roll re-roofing and smooth surface roll re-roofing but does not include wood, metal or slate re-roofing.

The term "related" and "incidental" construction work means any installation of building materials or construction work other than installed re-roofing and re-siding when sold by installers of re-roofing and re-siding.

Sec. 2. Relationship of this order to Revised Maximum Price Regulation No. 251. (a) The provisions of this order supersede sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of re-roofing and composition re-siding on an installed basis on residential structures and with respect to related and incidental construction work sold by installers of composition re-siding and re-roofing on an installed basis. All other provisions of Revised Maximum Price Regulation No. 251 are applicable to transactions subject to this order unless otherwise provided in this order.

(b) On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell, offer to sell or deliver composition residing and re-roofing on residential structures on an installed basis or related and incidental construction work as herein defined at prices higher than the maximum prices established by this order: Provided, That deliveries made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

(c) An employer paying or about to pay labor rates higher than those in effect for him on the effective date of this order by reason of the predetermination of wage rates by the Secretary of Labor under the Davis-Bacon Act or any order or authorization of the Wage Adjustment

Board, National War Labor Board or Economic Stabilization Director, may file an application for an amendment of this order to reflect such increased labor rates. Such a petition for amendment shall conform in all respects to the provisions of Revised Procedural Regulation No. 1, except that it shall be filed with the New York Regional Office of the Office of Price Administration.

On all sales of composition re-siding and re-roofing on an installed basis covered by this order, an additional charge of 50% of the maximum price per square may be made for the actual areas only which consist of the following on residing jobs: bay windows, towers, eye brows, dormer gables and dormer cheeks, porch columns, bulkheads and arches; on reroofing jobs—towers, eye brows, bay windows, overhangs and shelves.

SEC. 6. Related and incidental construction work. If on any job, any installed building materials are furnished or any construction service performed by the seller, other than composition re-siding and re-roofing, the cost of such work shall not be included in the cost of installed composition re-siding and re-roofing, but shall be separately priced and billed on all invoices. SEC. 7. Measurements. It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 10% from the maximum price computed under the terms of this order.

SEC. 8. Notification. Every person making sales subject to this order shall, if requested by the purchaser, make available to the purchaser a copy of this order and a copy of Revised Maximum Price Regulation No. 251. COLUMBUS AND SOUTHERN ONIO ELECTRIC CO. AND CONTRIBUTAL GAS & ELECTRIC CORP.

MOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its offices in the City of Philadelphia, Pa., on the 26th day of September, A. D. 1945.

Notice is hereby given that a joint application and declaration has been filed with this Commission under the Public Utility Holding Company Act of 1935 by Columbus and Southern Ohio Electric Company ("Columbus") and its parent, Continental Gas & Electric Corporation ("Continental"), a registered holding company subsidiary of United Light and Railways Company ("Railways"), also a registered holding company.

All interested persons are referred to said document which is on file in the offices of the Commission for a statement of the transactions therein proposed, which is summarized as follows:

As a preliminary step to the sale or other disposition by Continental of its holdings of the Common Shares of Columbus, in compliance with an order of this Commission, entered August 5, 1941, in proceedings pursuant to section 11 (b) (1) of the act, requiring Railways and Continental to dispose of their direct or indirect interest in Columbus, Columbus proposes to:

(1) Refinance its outstanding 83,601 shares of First Preferred 6% Cumulative, \$100 par value stock and 50,144 shares of Series B, 61/2% Cumulative, \$100 par value, Preferred stock (Hereinafter collectively referred to as "Old Preferred Shares") by affording holders of such shares the opportunity of exchanging them, on a share for share basis, for Cumulative Preferred Shares, \$100 par value, 414% Series (which will be the first series of a new class of 250,000 Cumulative Preferred Shares presently proposed to be authorized and hereinafter referred to as the "New Preferred Shares"), plus a cash dividend adjustment which, together with the dividends receivable on the New Preferred Shares. will give each stockholder who exchanges a dividend at the rate of 6% per annum on the First Preferred Shares and 6½% per annum on Series B Preferred Shares, respectively, up to the respective redemption dates of the Old Preferred Shares which are not exchanged. Any shares not exchanged will be redeemed by Columbus at the redemption price of \$110 through the use of treasury funds.

A complete statement of the terms and provisions of the New Preferred Shares will be contained in an amendment to be filed to the application and declaration herein.

It is contemplated that the period within which deposit must be made of Old Preferred Shares for exchange will extend for approximately three weeks prior to November 15, 1945 and that the earliest practicable redemption dates for such Shares will be January 1, 1946 for

the 6% Shares and February 1, 1946 for the 6½% Shares.

The exchange plan will become effective if 100,000 (approximately 75%) or more Old Preferred Shares are deposited within the above-mentioned exchange period, but Columbus reserves the right either to abandon the exchange plan and reject all offers of exchange or to declare the exchange plan effective if less than 100,000 Old Preferred Shares are deposited for exchange within such period. Columbus also reserves the right to limit invitations for exchange and to reject deposits, to the extent deemed advisable by reason of applicable State securities laws.

Upon completion of the redemption of the unexchanged Old Preferred Shares, the New Preferred Shares issued in exchange for Old will be the only preferred shares of Columbus outstanding. No New Preferred Shares will be issued initially, except as required in connection with the exchange plan.

If more than 100,000 Old Preferred Shares are exchanged, Columbus will use additional treasury funds in an amount equal to the redemption price (110% percent of par) of as many Old Preferred Shares in excess of 100,000 shares as are exchanged under the plan, to redeem a portion of its First Mortgage Bonds, 31/4 % Series due 1970. Of such sum, not in excess of \$212,500 may be deposited with the Indenture Trustee for redemption of bonds on September 1, 1946 through operation of the sinking fund at the then applicable sinking fund, redemption price of 1061/4% of the principal amount of the bonds. Any balance of such sum will be currently applied by Columbus to the redemption of such bonds at the current redemption price of 1083/4%, to satisfy future sinking fund requirements.

(2) Enter into an agreement with Merrill Lynch, Pierce, Fenner & Beane, of New York City, to act as Dealer-Manager in forming and managing a group of securities dealers to obtain deposits of Old Preferred Shares for exchange pursuant to the exchange plan. Details of the terms and provisions of such agreement and of the agreements between the Dealer-Manager and the several dealers, and concerning their respective compensation will be supplied by amendment to the application and declaration filed herein.

(3) Amend its Articles of Incorporation with respect to its Common Shares so that (a) its presently authorized 300,000 Common Shares of no par value will become 1,500,000 Common Shares having a par value of \$10 per share, (b) its presently outstanding 150,136 Common Shares without par value (of which 148,-891 or 99.17%, are owned by Continental) will become 750,680 of the newly authorized Common Shares having a par value of \$10 per share (of which 744,455 will then be held by Continental), and (c) holders of Common Shares shall have no preemptive rights. Such changes in the Common Shares will not effect any change in the stated capital applicable to such shares.

The applicants and declarants have designated sections 6 (a), 6 (b), 7, 12

(c), 12 (d) and 12 (f) of the act and Rules U-42 and U-50 as being applicable to the proposed transactions.

Columbus states that the issuance and exchange of the New Preferred Shares will be expressly authorized by the Public Utilities Commission of Ohio, the State in which Columbus is organized and doing business.

Columbus requests exemption from the competitive bidding requirements of Rule U-50 in connection with the issuance and exchange of the New Preferred Shares.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to the application and declaration and that the application and declaration shall not be granted or permitted to become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on the application and declaration under the applicable provisions of the act and the rules of the Commission thereunder be held on October 12, 1945 at 10:00 a.m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in these proceedings shall file with the Secretary of the Commission on or before October 10, 1945 his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Charles S. Lobingier or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of issues presented by the application and declaration, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the issue and exchange of the proposed New Preferred Shares are solely for the purpose of financing the business of Columbus and have been expressly authorized by the Public Utilities Commission of Ohio;

(2) Whether the provisions of the exchange offer are detrimental to the public interest or the interest of investors or consumers:

(3) Whether the proposed redemption of a portion of the Old Preferred Shares outstanding requires adverse findings under section 12 (c) of the act;

(4) Whether the fees, commission, or any other remuneration to be paid directly or indirectly in connection with the proposed issue and exchange and other transactions are reasonable;

(5) Whether Columbus is entitled to an exemption from the competitive bidding requirements of Rule U-50 in connection with the proposed exchange offer:

(6) Whether the proposed amendments to the Articles of Incorporation of Columbus with respect to its Common and Preferred Shares will result in an unfair or inequitable distribution of voting power among holders of its securities, or be otherwise detrimental to the public interest or the interest of investors or consumers.

(7) Whether any of the proposed transactions will be detrimental to the carrying out of the provisions of section 11 of the act.

(8) Whether the accounting entries recorded on the books of Columbus or Continental, or proposed to be so recorded, as evidenced by the application and declaration herein and any amendments thereto, are consistent with sound accounting principles and conform to the standards of the Act.

(9) Whether it is necessary or appropriate in the public interest or for the protection of investors and consumers to impose terms and conditions in connection with the proposed transactions; and

(10) Whether the proposed transactions comply with all of the applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.

It is further ordered, That the Secretary of the Commission shall serve by registered mail, a copy of this order on the applicants and declarants herein and on the Public Utilities Commission of Ohio and on the Federal Power Commission; and that notice of said hearing be given to all other persons by publication of this order in the Federal Register.

It is further ordered, That Columbus shall mail to each of its common stock-holders of record, at his last known address, a copy of this notice and order on or before October 1, 1945.

By the Commission.

Secretary.

FLORIDA POWER CORP. AND GENERAL GAS & ELECTRIC CORP.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 27th day of September 1945.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by General Gas & Electric Corportion ("Gengas"), a registered holding company and a subsidiary of Danis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), also a registered holding company, and by Florida Power Corporation ("Florida Power"), a subsidiary of Gengas. All interested persons are referred to said declarations or applications which are on file in the offices of the Commission for a statement of the transactions therein proposed which may be summarized as follows:

The Plan of Divestment of Assets, Simplification of Corporate Structure and Equitable Distribution of Voting Power ("Plan") of Gengas which was approved by orders of the Commission dated July 25, 1945 and August 23, 1945 (Holding Company Act Release Nos. 5950 and 6001) and now pending before the United States District Court for the Southern District of New York for enforcement, provides, among other things, that (1) the presently outstanding 3,000,000 shares of no par value common stock of Florida Power be reclassified into 1,000,000 shares of \$7.50 par value common stock, and (2) 460,759.2 shares of such reclassified shares of Florida Power common stock be distributed to the public holders of Gengas common stocks, Class A and E, and 396,383.8 shares of such stock be distributed to or upon the order of the Agecorp Trustees, leaving a balance of 142,857 shares of such reclassified common stock to be issued and sold by Florida Power for financing.

Subject to the acquiescence of the Agecorp Trustees pursuant to order of the United States District Court for the Southern District of New York, Gengas proposes to sell at competitive bidding the 396,383.8 shares of Florida Power common stock, \$7.50 par value, distributable to the Agecorp Trustees under the Plan, and Florida Power proposes to sell the 142,857 remaining shares of its reclassified common stock. The proceeds to be received by Florida Power from the sale of its remaining reclassified common stock will be used to repay temporary bank loans outstanding in the amount of \$500,000, to raise additional capital for construction purposes and other corporate purposes.

As part of the proposed transaction Genges will offer to its security holders who, under the Plan, are entitled to recelve Florida Power common stock, a prior right to subscribe to a proportionate part of the 142,857 shares of reclassifled Florida Power common stock proposed to be issued, on the basis of approximately one share of Florida Power common stock for each 6 shares of Florida Power common stock distributable under the Plan, at the same price as that paid by the underwriters to Gengas and Florida Power for the stock to be sold by them. It is contemplated that the Agecorp Trustees will not exercise any such rights to which they may be entitled.

By its said order dated July 25, 1945, the Commission, pursuant to section 11 (b) (1) of the act, ordered the Agecorp Trustees to divest themselves of all direct and indirect interest in and control over any and all properties and businesses of Florida Power and its subsidiary Georgia Power and Light Company. The filing states that the sale by Gengas of its holdings in Florida Power is a step in bringing the Agecorp system into compliance with section 11 (b) (1) of the act. In this connection Gengas has requested that the order of this Commission permitting said declarations to become effective or granting said applications, contain the recitals and other provisions nccessary to meet the requirements of Supplement R of the Internal Revenue Code, as amended.

Florida Power has also applied to the Commission for the removal of a dividend restriction imposed by order of the Commission dated April 10, 1941 (9 S. E. C. 29 (1941); Holding Company Act Release No. 2691) whereby payment of dividends on common stock in any calendar year beginning January 1, 1941 is and has been restricted to such earnings as may be in excess of the sum of annual preferred stock dividend requirements plus \$300,000. In this connection, Florida Power proposes to amend its Certificate of Reincorporation, to provide for a partial restriction on the payment of dividends on its common stock, so long as any shares of its preferred stock of any series are outstanding, while the common stock equity is less than 25% of total capitalization and surplus.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters, and that said declarations shall not become effective, nor said applications granted, except pursuant to further order of this Commission:

It is ordered, That a hearing on such matters under the applicable provisions of said Act and Rules of the Commission thereunder be held on October 8, 1945, at 10:30 a.m., e. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, at which time the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. At such hearing cause shall be shown why such declarations or applications (or both) shall become effective or shall be granted. Any person desiring to be heard in such proceeding shall file with the Commission on or before October 3, 1945, his request therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said declarations-applications, particular attention be directed at such hearing to the following matters and questions:

1. Whether the common stock proposed to be issued by Florida Power satisfies the applicable standards of section 7 of the act.

2. Whether the requested termination of the existing dividend restriction in respect of Florida Power contained in the order of the Commission dated April 10, 1941 is appropriate under the applicable

standards of the act and in the public interest and in the interest of investors and consumers; and whether the proposed dividend restriction to be provided for by amendment to the Certificate of Reincorporation of Florida Power is in all respects appropriate.

3. Whether the sale by Gengas of its interest in the common stock of Florida Power complies with the divestment order of the Commission and satisfies the standards of section 12 (d) of the act and Rule U-44 promulgated thereunder.

4. Whether the terms of the rights to be offered by Gengas to its security holders who are entitled to receive Florida Power common stock under the Gengas Plan are, in all respects, appropriate.

5. The propriety of the proposed accounting treatment of the several transactions on the books of the declarantsapplicants.

6. Whether the fees, commissions and other expenses to be incurred are for necessary services and reasonable in amount.

7. Generally, whether the proposed transactions comply with all applicable provisions and requirements of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder, and, if not, whether and what modifications or terms and conditions should be required to be imposed to satisfy the statutory standards.

By the Commission.
